

DATASHEET

Cashless Card Payment within the University & School campus.

Speed up service times by introducing a cashless solution that increases spending and still provides choice and ease-of-use for students.

Integrate an alternative solution to 'over the counter' purchases in school and instantly feel the benefits:

- Speeds up service times - cashless cards are faster to transact than cash
- Increase safety from misplacing or stolen cash
- Increases on-campus spending/limits spending to school grounds
- Allows increased parental control - daily spending limits and dietary monitoring
- Ensure the money is spent at school / university
- Reduces need for cash at school - decreased cash-related bullying
- Daily reconciliations allow for stronger audit control
- Gain better understanding of your business - daily/weekly reporting, increased accountability

Cashless card services are available to staff and students. Students can use their existing ID card - provided the card has a unique barcode, magnetic stripe, Proximity, Mifare chip or other ID - to spend without cash on campus. Staff can also take advantage of the service, giving staff the option to have any on-campus purchases with special privileges.

Increase Productivity

Reduce queuing time and boost operation

Prepaid / Postpaid

Eliminate cash

Data Insights

Leverage the full value of your data
